Are you searching for a customizable standard solution which would enable you to achieve complete integration of your business processes and enhance your productivity in the easiest way?

**PRODUCTION MANAGEMENT SOLUTION FOR THE METALS INDUSTRY**

**PLANNING**

- Due Date Quoting
- Flow & Order Planning
- Material Planning
- Order & Line Scheduling

**OPTIMIZE YOUR FACTORY WITH OUR PRODUCTION MANAGEMENT SOLUTIONS**

Our end-to-end approach offers more transparency for your entire production process. Based on standard Production Management software and reliable hardware we build your powerful and tailor-made solution to support all processes from optimized planning, logistics and quality to production execution always considering the complexity of metals production. We offer a comprehensive MES / MOM / Level 3 portfolio which secures Primetals Technologies’ Production Management a unique position on the market and

- Incorporate Primetals Technologies’ Process Know-How in planning tools for maximum plant performance
- Deliver Turn-Key Warehouse Management System with integrated projects execution know-how
- Plug & Play Integration of Primetals Technologies’ Process Automation Systems

OUR SOLUTION

Production Management solutions enable Primetals Technologies’ customers to achieve horizontal and vertical integration of their business processes, whilst boosting productivity throughout the entire production process. It is a customized solution to support processes on different levels of metals production as follows:

- Support of all planning levels from Business Planning via Production Planning to Detailed Scheduling
- Execution level to monitor and control production activities as well as to assure quality
- Level of material- and transport logistic to optimize all transports requested to keep production running
- Cross-application KPI and production monitoring

PRODUCTION

- Stock Management
- Transport Order Management
- Transport Optimization & Execution
- Shipping & Delivery

BENEFITS IN PRACTICE

- Improved due date performance and customer support
- Reduced inventories and order lead times
- Ensured production according quality targets
- Improved product qualities
- Reduction of production, energy and logistics costs
- Most efficient use of yard storage area with accurate inventory image
- Optimized transports and minimized material movements
- Continuous process improvement based on ongoing documentation of gained know-how

WHY TAILOR-MADE SOLUTIONS BY PRIMETALS TECHNOLOGIES?

As a worldwide leading engineering, plant-building and lifecycle partner for the metals industry Primetals Technologies successfully combines

- a comprehensive technology and service portfolio in iron-and steelmaking, casting, hot & cold rolling, processing, automation and environmental solutions,
- decades of metallurgical, engineering and plant-building experience and Process Know-How,
- one-stop-shopping for production equipment, process technology and automation and production management as leading provider of process automation (level 2 systems) and know-how packages,
- over 2000 automation projects successfully executed in the metals industry

to optimize production and logistics. Producers of all types of metal products, whether they produce carbon- and high grade flat steel, long rolled and tubular products as well as special steel, aluminum or copper products, are all profiting as our customers.
