

QM AND EHS POLICY

Primetals Technologies is a worldwide leading engineering, plant-building and lifecycle partner for the metals industry. The company offers advanced technology, modernization solutions, products and services, including integrated electrics, automation and environmental systems.

Primetals Technologies continuously challenges its teams to improve management systems and processes in order to guarantee the highest possible quality, environmental, health and safety standards.

Our businesses are required to set objectives and targets and to monitor their results to demonstrate that we are operating an effective integrated management system.

RELATIONSHIP BETWEEN COMPANY AND **CUSTOMERS/SUPPLIERS**

AS ONE WE

- Foster a company culture with the objective of developing and engineering products, processes and services that are defect-free and safe to both people and the environment
- Deliver the best products and services - considering their entire life cycle - to fulfil our customers' requirements based on a close interaction with them
- Treat our suppliers as a key player for a successful and sustainable business

RELATIONSHIP BETWEEN COMPANY AND **EMPLOYEES**

AS ONE WE

- Consider safety and protection of human health the most important commitment of our management and our employees
- Encourage everyone to demonstrate responsibility for the health and safety of others and the environment through education, training, coaching and effective communication
- Drive continuous improvement in all processes and use best practice and lessons learned to further develop our organization

RELATIONSHIP BETWEEN COMPANY AND **SOCIETY**

AS ONE WE

- Recognize the importance of the observance of laws, rules and regulations and conduct our business in a lawful and appropriate manner
- Use energy efficiently, contribute to climate protection and minimize our impact to the environment in our daily business
- Push continuous improvements in all our processes and apply internal and external best practice and lessons learned to further develop our organisation by consultation and participation of employees, managers, and where they exist, workers representatives

ALL EMPLOYEES AND MANAGERS ARE EXPECTED TO WORK TOWARD ACHIEVING THE OBJECTIVES OF THIS POLICY
